

# A REVOLUTIONARY SEALANT

290. ml

# BLACK MAMBA FHG

## Instant bond even under pressure

High initial bond strength eliminates the need for mechanical fixing or support while bonding heavy objects. Cures without shrinking, resists vibration and remains flexible.

## FEATURES

Excellent adhesion to a wide range of building materials and substrates, wet or dry, with no primer in most circumstances.

Permanent flexibility and exceptional resistance to extreme temperatures.

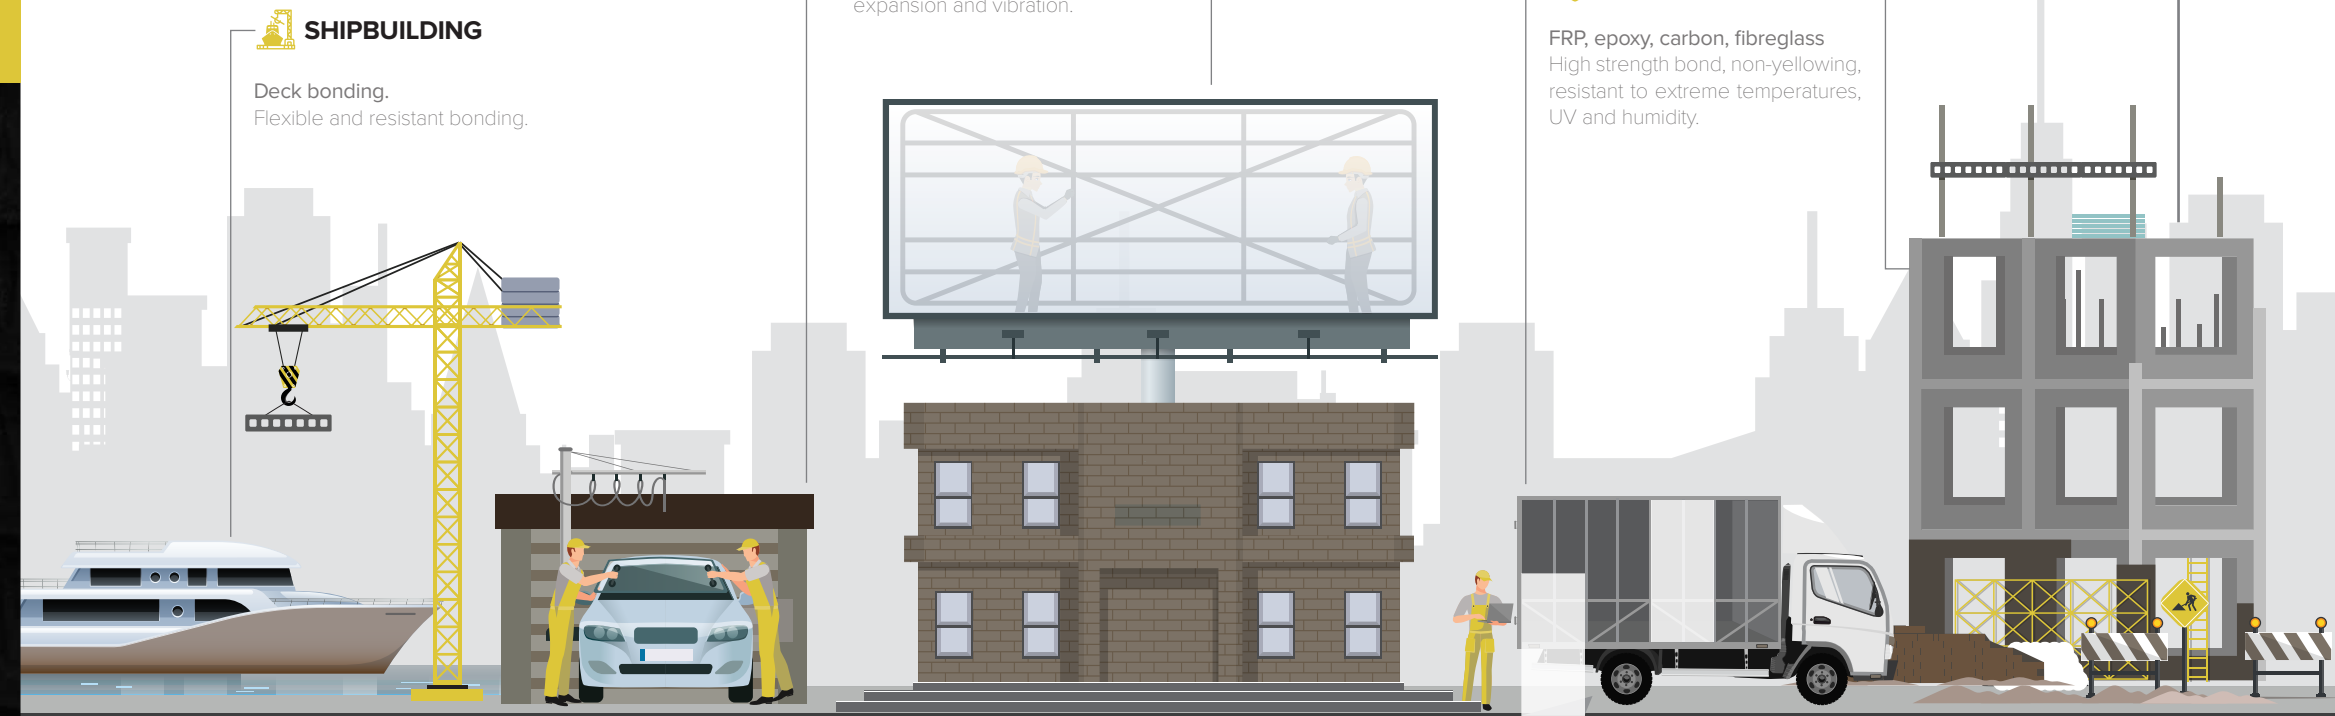

Can be painted over with water-based or acrylic paint.

Odourless, solvent free and isocyanate-free formulation makes it ideal for outdoor and indoor use and offers excellent resistance to UV and vibration.

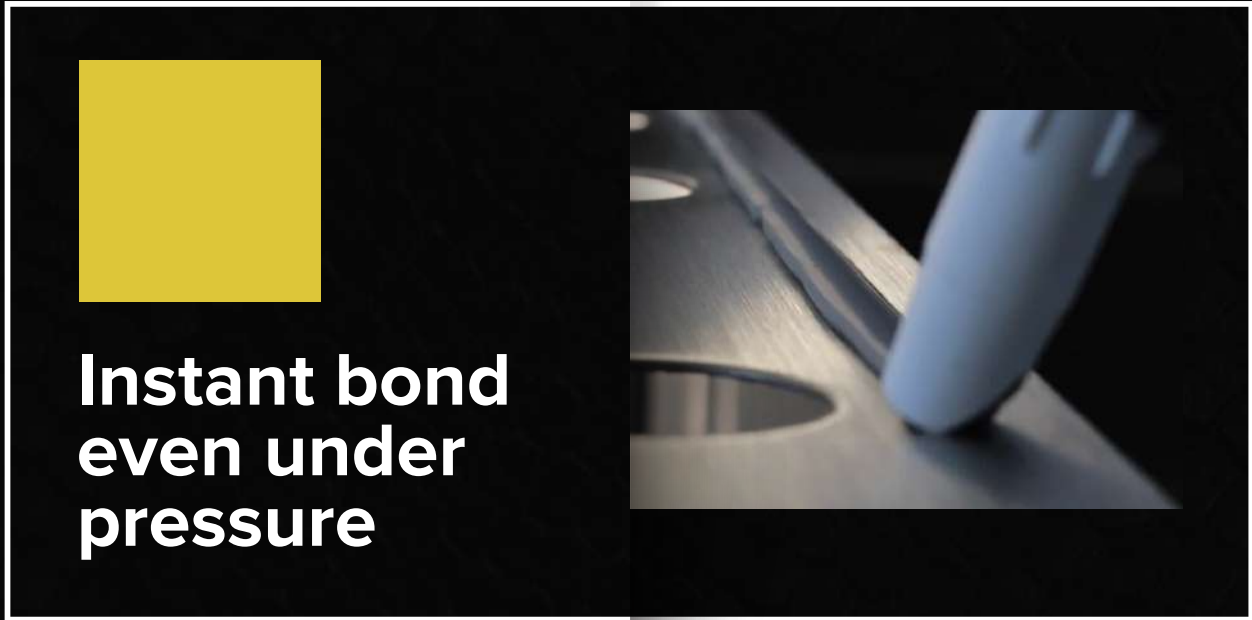

Fast curing and non-yellowing.

Easy to tool even in colder temperatures.

## APPLICATIONS

# BLACK MAMBA FHG

**Instant bond  
even under  
pressure**

## TECHNICAL FEATURES

	Product Number	Tensile Strength at Break (ASTM D638)	Elongation at Break (%)	Hardness Shore A (ASTM C661)	Skin Formation Time	Tack Free Time (ASTM C793)	Specific Gravity
<b>Sealants</b>	MS60 Black Mamba FHG High Tack	2.2 MPa	250	50 - 60	15 - 30 min	<24 hours	1.57
		320 PSI					
	 Other colours available upon request						
	MS60 Black Mamba FHG Construction	0.86 MPa	125	60 - 70	120 min	<48 hours	1.60 - 1.70
125 PSI							
 Other colours available upon request							
Black Mamba Construction meets ASTM C557, D3498, and AFG-01
